Workshop 1

Riding the waves of struggle and thrive: Your wellbeing blueprint

In this workshop we will:

- Introduce people to the concept of wellbeing, and that moving between thriving and struggling are normal
- Share the six elements that shape a person's wellbeing and how these apply in our work and personal lives
- Provide practical tools to improve wellbeing.

Workshop 2

Building connections: Optimising your energy at work through strengths

In this workshop we will:

- Highlight factors that contribute to the 'always on' way of working, and the risk of burnout without realising
- Discover practical ways to increase your energy by using your strengths at work and in life
- Encourage you to use a Strengths-Based approach within your team, so that you can utilise peoples' strengths and energies to create greater engagement.

Workshop 3

Are you tired of being resilient? Prioritising rest, recovery and wellbeing sustainability

In this workshop we will:

- Reveal how building resilience over the last two years has exhausted Australian workers
- Discuss the different types of rest (they may not be what you think!) and how they can look different for each person
- Show how to shift your focus from 'Time Management' to 'Energy Management' to reduce fatigue.

FOR EACH WORKSHOP IN THE SERIES, YOU WILL RECEIVE:

- A 60-minute virtual workshop which can be scheduled into a 'lunch and learn', team meetings, or at a time most suitable for your workplace
- Workshop Playbook with practical tools and exercises for each team member so they can feel in charge of their own wellbeing
- Links to additional resources to continue the conversation and learnings within your team.
